OSA-0520-84

24 JAN 1964

MEMORANDUM FOR: Acting Assistant Director, Office of Special Activities

SUBJECT : Status of J-75 Fuel Controls, P/N 389813-PH
As Of 1200L, 24 January 1964

1. Nineteen (19) fuel controls received with the original nineteen (19) J-75 engines. At a later date, thirteen (13) spare fuel controls were purchased. Total fuel controls numbered 19 installed in engines and 13 spares for a total of thirty-two (32) fuel controls.

2. During the past few years of operation, eight (8) were lost in Articles 343, 344, 380, 351, 353, 355, 360 and 378.

3. Six (6) additional fuel controls are presently under production for delivery during 1964.

4. The following represents the status of 20 of our J-75 fuel controls as of 1200 hours, 24 January 1964. Four are still unaccounted for at this time.
